Application/Control Number: 10/718,735

Art Unit: 2125

REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

As to independent claim 1, "only if said at least one condition departs from a desired threshold value", in combination with the other claimed elements and features is not taught nor fairly suggested by the prior art of record.

As to independent claim 16, "only if a monitored condition departs from a desired threshold value", in combination with the other claimed elements and features is not taught nor fairly suggested by the prior art of record.

2. Prior art of record

Sakatani et al. discloses a plurality of wireless sensor attached to industrial machines which sends detection data with identification information. The wireless sensor has a data processing unit and a communication unit. The wireless sensor detects vibration and temperature. The detection data is outputted with identification information such as an alarm, but all data from the wireless sensors are sent. The present application discloses ONLY if condition departs from a desired threshold is the data sent.

Hamel et al. discloses energy harvesting. The wireless sensor uses this energy harvesting for power sensing, storing and transmitting data. As in the previous prior art, Sakatani et al., Hamel et al. also transmits all data. Therefore Hamel et al. does not teach the limitation that Sakatani et al. lacks.

Fox et al. and Mickle et al. do not teach the limitation that Sakatani et al. lacks.

Application/Control Number: 10/718,735

Art Unit: 2125

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
